To the Oregon State Legislature

Subject: Opposition to Tolling on I-205 and HB2025

Dear Members of the Oregon State Legislature,

The Oregon State Grange formally opposes any measure to implement towing on the I-205 freeway, including HB2025. Our members have signed petitions and voiced their opposition to this action. We want to emphasize that we do not support towing on I-205 unless it is presented to the public for a vote within a five-mile radius of the proposed to any roads in the state of Oregon . The decision should ultimately lie in the hands of the community.

Thank you for considering our position on this matter.

Sincerely,

John E. DeHaas
