Opposing testimony against HB 2025

To whom it may concern,

I am proud Oregonian for 40 years! Born and raised here in this beautiful state! I am writing today opposing the House Bill 2025! It is taking money out of the hands of hard working people that are already struggling to stay afloat here in Oregon! I have a disabled husband who cannot work and does not qualify for SSI/SSD because he was a Commercial Fisherman and Farmer most of his life here in Oregon and did not pay into SSI/SSD. So it leaves me to bring home the money and to take care of a family of 6! I am asking you to take a look around Oregon and the citizens and listen to them! We do not support this Bill! We cannot afford it! I hope you consider the opposition! Thank you for taking time to hear my statement.
