

Submitter: Meloney Robles

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My name is Meloney Robles and I oppose adding any more taxes to Oregonians. We are already suffering at the hands of our government with some of the highest taxes in the nation. We can barely afford rent or food. Yet our government wants to keep supporting illegals with free food and housing etc. Meanwhile hard working tax paying citizens are drowning and near homelessness as well due to rising cost of rents and mortgages. Now you want to tax us more and steal our kicker as well. We pay way more than enough. At this rate most tax payers are fleeing the state for brighter futures. But us who love Oregon say enough already. Get out of our pockets and manage what money you have already have better! Stop wasting our tax dollars! A theatre in Portland being given over a million dollars is wasteful spending. Stabbin Wagon given millions to hand out drug kits to drug users is a complete waste of tax dollars!! Yet bus drivers across the state are getting laid off due to being a sanctuary state who values illegals more than actual citizens. We are fed up! So no do not put more taxes on us. While you're at it stop the rate increases from utility companies. Most can't even afford power now either! Stop sending people in government to Hawaii for meetings and expecting tax payers to foot the bill for these outrageous and useless events! Meet in Salem and fix the things you all broke!
