Lived here my entire life. I would like to retire and enjoy my state. Not sure if it's possible with all the taxes and fees. What will you come up with next to squeeze more money from the honest legal tax payers. Hey how about you budget the money you have instead of spending more like I have to do. I haven't had a raise in 4 years thanks to squeezing the life out of businesses. But don't worry if I die you'll tax that too.
