

Submitter: Dottie Boyd

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please STOP!! The greed of this states government is atrocious! Learn to live with what the people of this state already pay for. Have a third party of nonpartisan citizens audit every state agency, group and the legislative body and governors office for fraud, excessive spending, overreach and corruption and misuse of funds. I am sure all of this would be found. Instead of looking to the people for more, more and greedy more- look within.

Do not increase fees, taxes or anything else to the people of this state. I am a retiree and on a fixed income. Please stop!!!
