On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I'm a lifelong resident of Oregon and have seen the changes in society over the years. It ridiculous what's happened to our State. Big Government has taken over in a big spend, spend, spend attitude and I'm sick of it. Thiers been so many programs that have failed where millions were spent and no accountability where the funds actually went. For example the Oregon Health Plan cost millions and millions just for a Website that finally worked, so disgusting. We are taxed to death literally, So many people have moved here the apartment buildings are everywhere and we finally have a tax kicker but they want to take that away. If we actually do get it the State will get it back in taxes. I want more accountability with our money and see Government live within thier budgets like us good old taxpayers do. Disgusted
