Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My husband and I are retired, and yes, we saved and invested diligently to be able to enjoy our retirement years. Never dreaming that you Democrats would begin to tax us at such an outrageous level. We have had many friends and relatives move out of Oregon because of the ridiculous taxing system! We shouldn't be financially burdened by excessive taxation because of the inadequacies of those handling the money the road department was allocated!
