

Submitter:

Melinda DeShane

On Behalf Of:

Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I vehemently oppose HB 2025. It will be the final nail in the coffin for many struggling Oregonians. You are literally taxing us not only out of our homes but apparently you want to relieve us of our transportation as well. Is it more hopeless homeless populous you are striving to achieve?

Because that is exactly what this bill will lead to ultimately.

I would rather have a sales tax than have you mega tax the things we must buy. At least with sales tax its my damn decision and not yours.

And the huge increase in payroll tax is just breathtaking. I cringe every time I look at my pay stub now and dream of what I could do with all the money you are stealing from me and yet still you aren't satisfied. You want more.

?? absolutely NO ON HB 2025
