Measure, Appointment or Topic: HB2025

This bill will increase taxes to an unsustainable level for working families. I understand funding staff but there are far too many special projects within this bill that are inflated the price. Dont believe the fear mongering. A no vote will still allow the agency to operate while taking austerity measures where special projects are dropped and routine maintenance covered. Once that has been done a new funding bill can be put forward that covers basic costs not all the fluff. They have plenty of time to make it to the short session if not the long session for this.
