

Submitter: Robert Sutphin

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

When do we get representation that can figure out how to handle our tax dollars. This state can't tax itself out of debt. Businesses are leaving the state and new ones will not come. Instead of spending money on things that are important we east millions of taxpayer dollars on things like measure 114 and all the other unconstitutional garbage that has been proposed. The average people of this state can not afford this legislation.
