RE: HB 2025 A Transportation Package

1. Makes it harder for people on fixed incomes
2. I can't afford this

I am concerned because it appears to me that HB 2025 A is managed by an International entity. Who is that entity? (I waited for a response)

In Section 14 – Sub 1

International Fuel Tax License Agreement

Does this section allow for foreign entities to have our (PII) Personal Identifiable Information and manage these funds?

I heard that money has been coming in since 2017 but much of it hasn't been used for the allotted projects.

This should go to the people for a vote!

Please vote NO on HB 2025 A

God bless you and Jesus loves you!
