

Submitter: Jennifer Greer

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Cost of housing in Oregon is almost as high as California now. Gas is already inflated compared to most states. These two essential living expenses are already off the charts for the average person. Oregon needs a sharp audit of current expenses, not more taxes. Bloated bureaucracy is not the answer. Unless you want a mass exodus, which is already happening to some extent, find another solution besides raising taxes on a burdened population.

Vote no.
