

Submitter: Mark Patt
On Behalf Of: 250 senior home owners that say NO
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

I am part of a group of senior home owners in Jacksonville, Oregon. NO MORE TAXES. Many of us can not retire, have to work to make ends meet and have our homes in jeopardy because of rising costs across the board in Oregon. You need to pull back your spending just like we have had too in the past years. We call it survival mode. The problem is not lack of money it is the lack of logic and discipline. We need to take a DOGE stand and have a group of auditors do their jobs, like secretary of state Dennis Richardson said, actually audit all departments and in doing so save money, as he found in his tenure, many abuses and savings. We are sure there is waste and administrative costs that could be reduced and or removed across ALL state agencies that could and would balance the budgets and free up existing funds. Thank you for your attention to this matter. Lets call this what it is an attempt to rob tax payers and tax us more and once given we will NEVER get it back..
