

Submitter: Iori Grady

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am against HB 2025. I believe we need to maintain and improve our transportation system here in Oregon but feel there is no accountability for current expenditures. Too many non-essential projects funds are spent on and our basic system gets neglected. This bill will be a hardship on me and my family.
