Measure, Appointment or Topic: HB2025

As an Oregonian who is fed up with having demonrats steal from working class Oregonians, I am opposed to this and any measures that you put forth to take my hard earned money for your pet projects, for your supporting a Sanctuary State for illegals and pedophiles to live here on my tax dollars, for you not being able to budget the money that you steal every year and stay within your means as we have to do, for having paycheck to paycheck while you raise out taxes to pocket our earnings, for lying and hiding money that should be utilized for the purpose it was set aside for, and for your inability to understand who you work for!!

Every single one of you who think that this is okay, you are sadly mistaken.

Do your jobs, listen to voices of those who work for a living abd who you work for!!

You are all criminals who belong behind bars for selling out for profit!!!!
