

Submitter: Donalene Biller

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly object to this bill.

I am a senior citizen on a fixed budget. This bill would impact my income level significantly. I also live with my nephew who has a business that will be negatively impacted by a rise in fuel costs.

I believe that ODOT could make changes within their structure that would deal with their budget. Cuts in that department are needed.

Please defeat this bill.
