

Submitter: Kathy Bigelow

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Members of the Oregon legislature,

I oppose the increases to our taxes thru this Transportation Bill. I don't believe you are acting responsibly by thinking you can keep taxing the citizens of Oregon. We are not bottomless sources of money. People are going to leave this state more if you continue to raise our taxes. There seems to be no accountability in all the tax money you take. Stop all the social/cultural stuff which you are using the lottery money for and put it towards necessary transportation necessities. We need to start living and spending our money on necessities first. Thank you.
