Measure, Appointment or Topic: HB2025

As a 3rd generation Oregonian, Oregon has always been a great place to live, work and play. But somewhere along the way my state has lost its greatness. Schools have declined in spite of continued tax increases. We're riddled with transients who are destroying the cities, forest and open spaces. Drug use is tolerated and promoted with free needles, glass, foil and unenforced laws. Businesses have left and are leaving. People have left and are leaving. The passage of HB 2050 will most certainly increase the departure of tax paying citizens and businesses. These potential new taxes will be most burdensome on lower income citizens. This is a heartless tax on the low income, it's a heartless tax on all Oregon citizens.
