Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Wow—instead of taxing high-end luxury items, the super majority punishes hard, everyday working-class Oregonians. At a time when the state has added nearly 18,000 government employees, yet less than 1400 new jobs in the private section, ever-increasing taxes is not the answer. More will leave Oregon.

A major reset and re-prioritization needs to occur. Any representative that votes for this bill will be on blast with the working class.

It's a sad day when taxes destroy the great state Oregon once was. It is not sustainable.
