

Submitter: CINDY GRENVIK
On Behalf Of: HB 1153
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

DEAR SIRS

I oppose HB 2015, As a life long Oregonian I'm seeing the taxes on the citizens becoming an out of control . We are driving on roads in Pdx that have huge holes, Division Foster Rd and Powell are dangerous, swerving to miss the holes. Putting in fancy bike lanes without first fixing the roads is a travesty. Please let's get back to basics for the taxpayers. Give us a little breathing room before we jump into more and more taxes and fees. Have a legislative session where there are no added burdens on plain ordinary working people. Just because the house is in session does not mean there always has to be raises in taxes and fees. Thanks, from a senior citizen in Clackamas county
