

Submitter: Karrie Nelson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Rather than a whole new slew of taxes and increases, look for and eliminate waste. Take serious consideration of the republicans plan for helping fix ODOT. The fact that the new revenues from this bill, if it were to pass, are just going to the general fund and are not earmarked, means it will be very easy for them to get used in other places and not really fix ODOT issues at all. Strongly opposed. Businesses are leaving Oregon left and right because Oregon policy and taxes are so unfriendly to business.
