

Submitter: Terry Chance

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB 2025 should be defeated. There is nothing in this bill that will make our lives better. Increased gas tax, higher fees, higher sales tax on purchasing a car, new tax on purchase of tires and on and on. The department hasn't been good at spending the money the state has given them in the past so you reward them by giving them a billion dollars. What insanity.

We are struggling to make ends meet as it is. The State needs to cut spending not raise taxes.

Again I am saying do not pass this bill..
