HB3402

I am writing to ask you to reject this bill. I have serious reservations about the way this state funds transportation, and decry the lack of decongestion especially on roads that are congested today. ODOT remains reckless, corrupt and ineffective and unable to engage with stakeholders in good faith or act as prudent stewards of public funds. I supported HB 2025 with reservations because it invests in two critical needs to make roads less deadly for people using them on foot, rolling and driving by investing in the Greater Streets program and investments in kids being independent and safely getting to school thanks to Safe Routes to School. This bill funds ODOT's unaccountable activities and disinvests in all the things that made HB 2025 palatable.
