HB3402

I'm reading that HB 2025 is failing and we are going to end up with a much worse bill that funds only ODOT - no safety, no transit, no \$ for cities and counties. Funding ODOT's highway expansions is the least useful part of our transportation system funding.

This would be catastrophic -

ODOT has been pleading poverty while funding megaprojects.

If we are going to pass a gas tax to fund ODOT only, we should at least force them to do maintenance only and stop work on their highway expansions.

Please do what you can to get a better bill and avoid the worst outcome from this situation.
