Measure, Appointment or Topic: HB3402

We desperately need funding for transportation. We need a package, like HB 2025, to repair our aging infrastructure and invest in safety, transit, communities, opportunities, and the future. Without this funding, too many Oregonians, especially children, seniors, and people with disabilities, will be forced to travel dangerous roads every day.

We do not need a hasty highway funding bill that encourages more people to drive, more pollution, and more dangerous roads. Please oppose 3402.
