HB3402

I am absolutely opposed to this insane Bill. I am also appalled as citizens we do things by the book, follow the procedures according to the Constitution of the state to resolve our grievances with the way the state is run and you go behind our backs after the bill was already set aside and try to pass it another way. This is not the way it works, you work for us not the other way around. You have mismanaged our state into the literal ground and now to try and squirm your way out of it you do this underhanded and shady tactic to still put this burden on the people. American citizens of Oregon demand your attention on this. You have lit a fire under all of us to fight back against this taxation without representation and all the unconstitutional things you've heaped on all Oregonians.
