Committee:

House Committee On Rules

Measure, Appointment or Topic:

HB3402

I strongly oppose HB 3402. Disregarding over a year of public input and testimony to shove through a half measure at best is among other things a profound betrayal to the residents of this state. The public has been very clear that we need funding for city and county streets and essential transit services. Ignoring enormous amounts of public process to pass something without any of that at nearly literally the last possible moment is not what our elected leaders should be doing. You have a mandate from the people of this state to pass a transportation package that ensures that vital transportation needs are met. This is not that!
