House Committee On Rules

Measure, Appointment or Topic:

HB3402

I am once again sending my testimony to the Oregon legislature that increases in taxes and fees are not acceptable for working families and Oregonians on fixed incomes. The cost of living in Oregon is increasing high and adding additional costs through taxes and fees will only exacerbate the problem. There is not enough time in this session to adequately address all the questions and concerns and therefore these transportation funding bills should be scrapped. Unfortunately these complex issues were not addressed early on in this long session as they clearly should have been and now it is too late in the process. I urge no vote on this bill to save Oregonians from continuing increases in the cost of living in this state.
