House Committee On Rules

Measure, Appointment or Topic:

HB3402

I strongly oppose HB 3402. I live in Tygh Valley, a rural farming community in Wasco county. I currently drive 63 miles a day to commute to work. From the month of December to the month of June that distance increases to 134 miles a day due to seasonal road closures. Would HB 3402 allocate the money to plowing snow on FS Rd 48 during the winter? Doubtful. I travel 30 miles one way for groceries and doctor's appointments for myself and my child. This bill would have a never ending negative impact on my family and countless others like it. This bill would add to the already crippling costs of living that Oregonian's are already facing. Every individual person, business and school would be negatively impacted by HB 3402. Our by government wants us to dig them out of a hole, while they pile the dirt on top of us. NO!
