

Submitter: Denise Saylor

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am 71 year old who had to go back to work in order to survive in paying the cost of living. I work part-time which is hard already. I oppose the 2025 tax increase. My husband and I already avoid using our ac on hot days and avoid watering our grass because of the high costs associated with each of those. We have limited our driving in seeing our grandchildren because of the high cost of gas. We both strongly oppose this tax bill.
