House Committee On Rules

Measure, Appointment or Topic:

HB3402

I whole hardly oppose this transportation bill. The fact that you people cannot run government efficiently while at the same time stealing 10% of Oregonians money in the form of income tax is asinine. Then you say you are going to submit a bill where Kotek gets to APPOINT at will? What happened to No Kings, yet this government acts as a monarchy, thinking you know better than what the overwhelming majority in Oregon want?

Instead of actually listening to constituency who helped get you your jobs you ignore us, hold a special session where you play King and threaten to withhold money for pet projects?

What happened to No Kings?

Oh yeah, YOU get to act like kings and out of the other side of your mouth accuse the other party of being one?

Don't think we don't see you, your behavior, how you vote and the things you support. We also see who pays you behind the scenes. Public record is a bitch isn't it? You can't hide behind newspapers and MSM anymore. Citizen journalism is going to find you, out you, expose you and have you held responsible for all of your work while acting as a public official.

Your time is ending.
