Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose this measure on every level imaginable. Taxes and tolls from every direction possible. And not small amounts either. You just can't do this to people . So not right. We live on Hayden Island. So basically this is also proposing what I am calling "leave my house tax" through tolls. You won't even consider an immersed tunnel option that would be so much less expensive and way more functional as well as a shorter construction time. Instead you want US to pay for your big mega bridge that doesn't even work for planes or large ships on the river.

Portland has become an unlivable city for people on fixed incomes. My husband and I are both born and raised Oregonians. We don't want to have to leave but this city and Multnomah county is taxing us to death.

Stop the insanity!
