

# HB 4154: ATTENDANCE BILL

**Clearer data. Stronger support. No new burdens.**

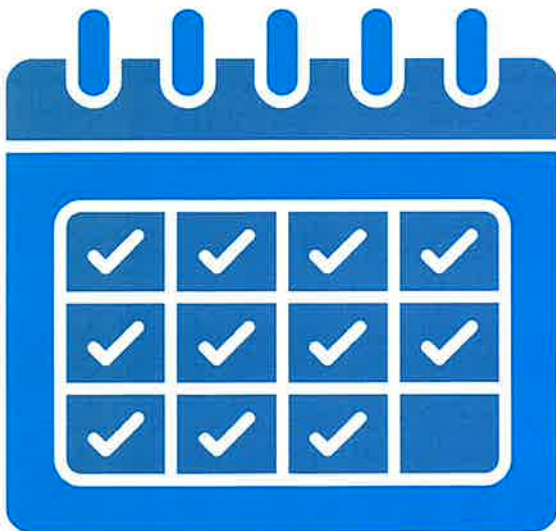

*Chief Sponsors: Representative Wise, Representative Dobson,  
Representative Rieke Smith, Senator Reynolds, Senator Frederick*

## WHY ATTENDANCE?

Attendance is a key predictor of graduation, workforce readiness, and family stability. **Kids can't learn if they're not in school.**

### What the bill does:

- **Aligns Oregon with national best practice:** counts students after 10 days of enrollment for reporting purposes.
- **Requires quarterly public reporting:** the same schedule schools already use.
- **No new burden for schools:** ODE already collects this data for federal purposes.

### Why it matters:

- **OR has the 3<sup>rd</sup> highest rates of chronic absenteeism in the nation:** over 1/3 of students miss > 10% of school days.
- **Current data is reported the following school year:** too late for intervention.
- **Quarterly reporting = earlier support.**

**Oregon currently requires students to be enrolled 75 days before their attendance "counts." Most states use 10 days.**

**Aligning Oregon with national best practice produces more accurate, comparable data.**

## THE BIG TAKEAWAY

HB 4154 is one of the first major steps in rebuilding a long-term student success strategy. It provides clearer data, more accountability, and earlier opportunities to support students and families, without creating new burdens for schools
