Committee: House Committee On Behavioral Health

Measure, Appointment or Topic: HB4083

I'm a Licensed Clinical Social Worker. My previous job was a Medical Social Worker for Home Health and Hospice. It was not necessary to be supervised by a Professional Counselor or Marriage and Family Therapist. I oppose parts of HB 4083.

HB 4083 requires Social Workers to be supervised by Licensed Professional Counselors and Licensed Marriage and Family Therapists in addition to Social Workers.

This is not necessary for all Social Workers and puts strain on the profession. We're a diverse field that can't be grouped so easily. I recommend an admendment to not require Social Workers to be supervised by Licensed Professional Counselors and Licensed Marriage and Family Therapists in addition to Social Workers.
