Attn: **House Committee on Revenue**

Re: **HB 4125**

I am writing to confirm my support for HB 4125. The Kicker prediction has missed in every biennial forecast over the past decade to the detriment of the majority of Oregonians. It is impossible to factor in unexpected events, such as a pandemic, massive reductions in taxes for corporations and the very rich, for example, ballooning housing values or big jumps in inflation. We need to stabilize the General Fund and ensure more rational budgeting Please pass HB 4125.

Thank you,

Tegan O'Brien
