

Submitter:

Nicola Van Hoff Van Hoff

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

I am submitting my testimony in favor of this bill for the safety of all residents of Oregon. Hiding the identity of federal agents should never be allowed. These people hold positions that are intended to protect and serve its constituents and my tax dollars are used to fund their actions. I want to know who they are so that I can verify the safety of our community. Masked agents create fear and a feeling of opposition to our communities. Masked agents hide their identity and accountability for their actions when they break the law or don't uphold the rights of our community members. I encourage you to support this bill to create a safer system of check and balances.

Sincerely,

Nicola Van Hoff
