Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

As a retired attorney, I have been dismayed at the use of force and intimidation by masked agents of the federal government. I support this bill to limit the use of masks and provides penalties for doing so. Americans have the right to free assembly under the US Constitution. This right has been abridged by masked federal agents over and over again, in our state and in other states. Ours is a Sanctuary state. There should be legal consequences for chilling the right of free assembly and for the right to confront those who overstep the many rights embodied in Oregon law
