Aimee Stone

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

My name is Aimee Stone and I'm writing in support of HB 4138 as proposed which would require law enforcement to be identifiable with proper, government issued identification. This bill would also prohibit law enforcement from obscuring their faces with masks, sunglasses, etc to ensure that they can be held accountable for any wrong doing, such as kidnapping parents, tear gassing children, and using unnecessary force against protesters.

We have masked ICE agents abducting people actively seeking medical attention, picking children up from school, and ripping folks out from their vehicles without any explanation, and often failing to provide a judicial warrant when breaking into homes. We cannot allow for this to continue. Until we get ICE completely off our streets, forcing them to show their faces is the least you can do.

I urge you to support this legislation as proposed.
