

Submitter: Elizabeth Elliot

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4138

Writing in support of this Bill. I am a public school educator in Gresham, and we have seen attendance in our schools dramatically affected when ICE presence is rumored to be active. Children and families are terrified to leave home, answer the door, or really communicate at all. The fact that ICE “agents” are not required to identify themselves and can cover their faces leaves open opportunities for them to do unlawful things, and we’ve seen how well that’s gone in Minneapolis.

If we’re currently unable to get rid of ICE in our communities, they should AT LEAST be required to identify themselves. I urge you to vote in support of Bill 4138 for ALL of us!
