

To the members of the House Judiciary Committee,

We are Justice Advocates, a grassroots organization in the Portland area that works for the elimination of unfair and harmful practices by police, courts, and prisons. We support **HB 4138**, because it is very important for transparency and accountability that all law enforcement identify themselves when dealing with the public- and that includes federal agents. When any law enforcement confronts residents of Oregon, we not only need to be able to hold them accountable, but we also need to know they are not unidentifiable individuals or someone pretending to be law enforcement!

In addition, it is important to clarify that local and state entities will not coordinate with or assist federal or out-state-entities that are not respecting rights or following our laws and the US Constitution. We are a Sanctuary State that respects due process and all residents' rights.

The Judiciary Committee should pass HB 4138 and send it to the floor for a vote. Oregon residents need this protective legislation!
