

Submitter: Andy Henning

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1570

As a nurse practitioner in Oregon since 2013, I have had the privilege and responsibility of providing care to thousands of patients across this state. Access to quality health care is a human right and many patients are avoiding necessary appointments because the risks of attending visits are potentially catastrophic. We must take the necessary steps to protect the safety of all patients in and around our hospitals and clinics regardless of immigration status.
