Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1570

Healthcare is a human right and everyone should have the safety and the right to access care regardless of their legal status. We are all people and people need to be able to go to the hospital without the fear of being torn away from their loved ones and disappeared by masked thugs who won't identify themselves. What is happening is unamerican and unacceptable and we have to do everything in our power to stop it. In every instance in history the masked people shooting others in the streets have been the bad guys and we do not want to sit idly by while these fascist assholes brutalize our community
