House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

I live in Washington County, and this fall it became become a hotspot for apparent federal immigration enforcement. These individuals wear face coverings, unclear (if any) identification and carry no warrants, as they violently kidnap people from our streets.

Children are afraid that they will return from school to find their parents have been taken. Some have even witnessed ICE at their school bus stops.

With unclear local law enforcement protocol, people are unsure who is Oregon law enforcement and who is ICE/CPB. I urge your support of this bill.
