Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1570

Given that federal agents are violating the constitutional rights of every person with whom they come into contact, and given that their actions have nothing to do with providing safety, and given that their apprehension and detention of any persons they deem prospects for their activity invariably suffer harm and given that we all know this is only meant to intimidate all of us, I declare they should not be allowed anywhere near any hospitals, since their objective is only to create further harm.

It is an insult and an injury to us all when any of this behavior is not directly challenged by our state Department of Justice, including the prosecution of these criminals for their criminal behavior!
