Committee:

House Committee On Health Care

Measure, Appointment or Topic:

HB4107

My name is Aubrey Raney-Avers and I am in support of HB 4107 and grateful for it being brought forward. It seems to be a well-thought out solution to the confusion of navigating care that can't wait, but doesn't warrant the ER. I recently hurt my ankle and needed it evaluated. After waiting hours to be seen at a local urgent care, I was told that they didn't have x-ray available because the technician had left for the day, and I would need to visit a sister location the next day (and wait again). If these rules were in place, I would have been able to ensure that I was getting care somewhere that had an x-ray tech and machine available. These changes and guidelines are needed, and I urge your support. Thank you for your time.
