

What is wrong with this bill?

Unchecked Authority: Grants broad power to unelected public health officials to make decisions affecting all of us, without further legislation or public debate.

Automatic Mandates: Clears the way for vaccine requirements to affect access to schools — without another legislative vote.

Forced Compliance: Invokes statewide one-size-fits-all medical orders without individual consent.

Taxpayer-Funded Mandates: Compels insurance companies and taxpayer-supported public programs to pay in full for vaccines and health services.

Overrides Doctors: Removes ability of doctors to make decisions in the best interest of their patients.

Instead of working to regain the trust in public health lost during COVID and the earlier attempt to remove vaccine exemption rights for school children before that (one which very few use, and generally only those whose children have been injured by vaccines already - as mine were), Oregon is doubling down on medical procedures that have risks associated with them and therefore must never be mandated.

This is immoral, and harmful and violates human rights. No, No, No.
