SB1598

Let history shine light on such poor legislation. Look what the COVID experience did and did not do for our citizens.

Prominent doctors throughout the United States had solutions that were blocked by unelected and UNQUALIFIED officials. 15,000 doctors signed the Great Barrington letter pleading law makers not to enforce isolation for so many reasons. Especially since there were common sense remedies that were and still are, available.

Why would a vaccine be provided for FREE? Because the side effects provide a return on investment... Blood clots, myocardopathy, asthma, heart attacks, etc.

Healthcare facilities and Dr. Fauci's officer were mandating killer "solutions" such as Remdesiver, known for years to cause death to 64% of those receiving it.

Kids that WERE NOT susceptible to COVID were forced to take the shot, resulting in many side effects. Death from COVID shots far out exceeded those not receiving COVID shots.

Do your homework. Listen to respected doctors and scientist that risked their licensing, such as Dr. Batacharya (Standford), Dr. Peter McClougouh, Dr. David Martin and 14,997 other doctors / scientist.
