

Submitter: Rachel Weisshaar  
On Behalf Of:  
Committee: House Committee On Health Care  
Measure, Appointment or Topic: HB4155

As an Oregonian who cares deeply about those struggling to build their family in our state, I am writing to urge you to support HB 4155, which would expand access to family building services in Oregon. This legislation will help the 1 in 8 Oregonians living with the disease of infertility and anyone in Oregon who faces barriers to building their family.

I needed medical care to help create my family, and I believe that fertility services should be available to any Oregonian who needs them. It is well past time for Oregon to update its insurance laws to include coverage for infertility. This legislation will ensure vital healthcare access for patients with infertility and those diagnosed with cancer or other conditions that may cause infertility.

Thank you for your consideration.
