Committee: House Committee On Emergency Management and
Veterans
Measure, Appointment or HB4100
Topic:

Members of the House Committee on Emergency Management and Veterans:

This bill represents a powerful tool in improving the state's ability to respond to an emergency, such as the subduction zone earthquake and aftershocks. We need the businesses who are responsible for harms that will naturally result from wildfire, earthquakes etc, to provide for responsibly repairing those harms. The Risk Bond Bill (HB4100) can offset calamity by being an economically responsible policy to protect taxpayers and state coffers alike.

I strongly support this bill and urge you to help it pass, now, before it's too late!
