Senate Committee On Health Care

Measure, Appointment or Topic:

SB1570

To the Committee:

I am writing in support of SB 1570. Hospitals and health care facilities are no place for patients to fear going when life affirming services, and even preventative care, are most needed. The hardworking staff of these facilities also should not need to additionally navigate a political climate when their job is to care for whomever walks through their doors in need of services while respecting patient privacy and confidentiality. Again, all who seek medical care deserve access without fear. Thank you for your time.
